Dear Tony,

I want to express my sincere thanks to you for helping me buy my new home. I can honestly say that it was one of the most awesome experiences I have had. It truly is a great story, from beginning to end. Actually, it's so awesome that no one believes me when I tell the story of how the entire transaction unfolded!

As you know, I was not seriously looking for a house at the time that you found this one. But, it truly was "meant to be", and to say you worked quickly would be an understatement! The timing was critical, and you were willing to go the extra mile in every instance. I could not have asked for a more positive overall experience.

As we move in and my family begins creating our own memories here, I have no doubt that my initial positive experiences of finding and buying this home are ones that will stay with me forever. I honestly cannot thank you enough for your efforts.

Sincerely,

Patricia B. Lewis
